## HIGHLIGHTS OF EXPERIENCE

Mr. Peter N. Kutrubes serves as the Chief Executive Officer and General Manager. Mr. Kutrubes sets policy and direction for the firm and manages the many legal and business relationships the firm has. In addition to his fiduciary duties to the stockholders of the company, he is responsible for advising clients on matters pertaining to site access and feasibility; transportation policy, planning, and design; and overseeing all technical efforts in the areas of site permitting, transportation planning, and traffic and transportation engineering.

Mr. Kutrubes has provided professional engineering and planning services to a wide array of public and private sector clients. He has served in a professional capacity with the Massachusetts Highway Department (MHD). Over a 37-year career with the Massachusetts Highway Department and predecessor agencies, Peter was responsible for the design and construction of countless traffic and safety improvement projects, as well as highway lighting projects.

Mr. Kutrubes has held several management positions while at MassHighway, including more than 15 years as the Manager of the Electrical Systems Unit. In this capacity, he oversaw a capital program requiring the design of \$10.0m to \$15.0m in traffic and safety improvements annually. In addition, he negotiated and managed over \$3.0m in consultant design contracts. Peter also managed the traffic mitigation component of MHD's permitting process, issuing traffic signal permits to facilitate over \$100.0m in private development projects annually.

## PROJECT EXPERIENCE

Mr. Kutrubes' extensive management experience included projects in countless cities and towns throughout the Commonwealth of Massachusetts, totaling more than \$100 million. The assignments included a variety of safety improvements, highway lighting, traffic signal upgrades, roadway reconstruction, and permitting projects. Representative examples of his project experience includes:
