

LOCATION:

Quincy, MA

CLIENT:

City of Quincy

Parks Department

PROJECT TYPE:

Recreational Lighting

PROJECT SUMMARY:

- ▶ Lighting Plans

The City of Quincy retained Traffic Solutions to prepare contract documents for the installation of recreational lighting at Mitchell-McCoy field in Quincy, Massachusetts. The City desired lighting to provide for seasonal evening activities. The site included two substandard baseball fields, which were being consolidated into one regulation field.

Traffic Solutions prepared recreational lighting plans for the for the new, consolidated regulation field. The plans included high mast lighting. Standard recreational lighting fixtures were specified. The project included the design and installation of load centers, electrical conduits, circuitry, service connections, and distribution systems.

Traffic Solutions provided bidding and construction services to the City. The scope services included coordination and review of the bidding process. Traffic Solutions performed reviews of shop drawing proposals, contractor qualifications, and bonding/insurance requirements, as well as bid prices.
